

Precautions for seasonal events such as New Year's Day etc.

Please, try to avoid participating in crowded places and events and/or dinners where infection prevention measures are not in place. Particularly, refrain from participating in events or parties where large crowds of people and people are speaking loudly.

When participating in events or going out for meals, take appropriate prevention measures, such as maintaining a safe distance from other people, disinfecting your hands, wearing a mask, and refraining from loud conversations.

Please refrain from drinking heavily or late at night on the streets or in restaurants, or from participating in events after drinking alcohol, as much as possible.

If necessary, please consider new ways to enjoy the holidays, such as spending time with other family members at home or participating in online events.
